upon thousands, the flower of the land, were slain. Continental Europe looked on in amazement and wondered what the result would be to the young Republic. But these are events of the past; we now have to battle with the present, and every one should see that he is suitably clothed so as to contend successfully in the battle of life. If you do not sleep well you cannot work well, and if your underclothing is unsuitable for the season you cannot feel comfortable. Therefore, to remedy the first of these evils, try a Pyjama suit, and for the second try the fine cashmere, or silk and wool underclothing, a speciality for Autumn wear, which is sold only at "The English", 594 Cangallo, whose motto is The Best is Cheapest.

TELEGRAMS

(via Galveston.)

Vienna, 22d.—The Government is in a state of great uneasiness owing to the attitude of the Russian commanders in Poland.

General Gourko, apparently acting on orders from St. Petersburg, appears to be prepairing for hostilities against several Powers, especially Austria and Germany.

The defensive works at Warsaw are being pushed forward vigorously, and the owners of houses there have been notified that the soldiers will be quartered in them in case the Russian army has to occupy the city.

Berlin, 22nd.—The latest news about the partial Cabinet crisis is that General Caprivi will retain his post of Chancellor, but throw up those of Foreign Affairs and President of the Council of Ministers.

Brussels, 22d.—More corpses have been found to-day in the ruins of the Anderlue mine.

Cairo, 22d.—The presence of nine English ironclads in the port of Alexandria since Sunday last, and the non arrival of the vessel with the Sultan's Envoy on board is giving rise to much comment in high political and diplomatic circles, as it confirms the reported coolness of relations between England and Turkey.

Berlin, 22nd—The Marquis of Caraselce has been found dead in his room, with a pistol wound. The cause of this murder is unknown.

London, 22nd.—A despatch to the *Daily Telegraph* says that Prince Bismarck has just fallen suddenly ill.

Paris, 22nd—Telegrams from China say that civil war is raging in those regions.

Buda-Pesth, 22nd - Serious riots have occurred in the northern districts of Hungary. In Orecho the peasants tried to murder the Burgomaster.

THE NEW RAILWAY TAX.

Mr. Riestra predicted that before very long the public of Buenos Ayres would be driven mad with taxation, and it seems as if Government of the Province were determined to verify his words. A law has just been passed by the La Plata Legislature imposing (on and after April 1st) a tax of 5 cents on every ticket issued by any railway or steam-tramway in the Province. Nay more; if a passenger from Rosario take a ticket to Luxan or Mercedes the tax is to be applied at the place of destination, although the ticket was issued in another province.

The tax is notoriously illegal, and on a par with the Black Mail now levied on wheat and other products in Santa Fé and Entre Rios.

It is hardly necessary to remind our readers that all the railways in the Province belong to English companies, who have spent in their construction a sum of £38,000,000 sterling, on the security of concessions, the fundamental principle of which was that the said railways and all their belongings should be free, for 50 or more years, from all taxes, national, provincial or municipal.

The reason for this exemption from taxation was manifest, for, if the public authorities were at liberty to impose a tax of ten, twenty or fifty per cent on the earnings of railways the various lines might be at any moment rendered valueless by a decree to that effect

Hence the Argentine Congress and Government solemnly pledged themselves to protect the various railways not only from National taxes, but from any attempt by the provincial or municipal authorities to levy Black Mail in the manner now proposed.

No law passed by any provincial Legislature can over-ride a solemn compact signed by Congress, and the attempt to pass a law of the kind is a rebellion against the Constitution. But the matter does not end here, for the Argentine Government has expressly undertaken to guarantee the railway companies against whatever molestation under the guise of local taxes.

The insolence of the present attempt is aggravated by the cynical preamble to the law, which says:—

"The Government, wishing to consult the interests of the various railway companies, sent circular copies of the annexed law to the several managers, inviting them to project with the Receiver of Taxes the best mode for collecting the tax with least molestation to the public."

We are not surprised to learn from the succeeding paragraphs of the preamble in question that the managers paid no attention to the circular, and refused to project anything. But we are sincerely sorry and surprised to find that neither the National Government nor the Federal Tribunal has taken any steps to prevent the collection of so illegal a tax.

The returns of railway traffic for 1890 shew that the lines in this province carried 7,000,000 passengers: the proposed tax would, therefore, amount to 350,000$. Next year the tax, we may fairly presume, would be doubled, and so on until the amount might reach 10,000,000$ or more.

Nothing simpler could be devised to fill the Treasury of La Plata, at the cost of the railway companies. Everyone of the Upper Provinces would follow suit, and in a few years every railway-company in the Republic would be bankrupt.

Even at present the railways are going through hard times. Some are actually working at a loss. So that, apart from the illegality of the tax, any attempt to diminish their earnings would be a suicidal act on the part of the Argentine Government.

THE AMERICAN SQUADRON.

On Monday, Admiral Walker and his officers visited the Admiral Brown, the 25 de Mayo, the torpedo-boat Murature and others of the Argentine squadron at present lying off La Plata at a distance of about seven miles. The Governor of the Province, Chief of Police, and Messrs. Luis Garcia Mendiburu and Lucio V. Lopez joined the party, which set out at 3 p. m. in the tender Resguardo. The party were welcomed on board the Brown by Rear-Admiral Cordero, Captain Blanco, Captain Segui, and Admiral Solier. The party soon dispersed over the vessel, which they visited most minutely. They expressed themselves highly pleased with everything they saw and congratulated the Commander and his men on the splendid condition of the ironclad. The party then boarded the 25 de Mayo, and witnessed some exercises which shewed how well-trained and disciplined the sailors are. The Governor and his friends then returned to La Plata, while Admiral Walker and his officers proceeded to discuss a lunch on board the Brown. The main table was occupied by Rear-Admiral Cordero, with Admiral Walker on his right, the Commanders of the North American squadron, Mr. Fishback, secretary of the United States Legation, Captain Garcia Mansilla, Dr. Dardo Rocha, Commander Domecq Garcia, Rear-Admiral Solier, and others whose names we cannot recall. The utmost conviviality prevailed, particularly at the officers' table, over which the popular and jovial Captain Peña worthily presided. Rear-Admiral Cordero opened the toasts and drank to the prosperity of the North-American navy. Dr. Dardo Rocha delivered a brilliant speech, sketching the history of North American Independence. He drank to the friendship of the Argentine Republic and the United States.

Mr. Fishlack, secretary of the United States Legation, followed with a speech in English. He was sorry he could not express himself in Spanish. He said that within the near future there would be only two great nations in America. The United States in the North and the Argentine Republic in the South. The worthy secretary was loudly applauded.

The ship's band played during the lunch, after which the party boarded the Resguardo to return. The party were received and sped with the usual honors. As the Resguardo moved off, Admiral Walker uttered a thundering hurrah, which was caught up and repeated by the party. It is needless to say that the Admiral and his party were highly pleased not only at the enthusiastic reception but at all they saw. The recollection of this visit will be long engraved on the memory of all who were present.

OUR LONDON LETTER.

HOME POLITICS.

(From our own Correspondent)

Feb. 19th.

Gentlemen in Buenos Ayres who still take an interest in the affairs of the old country will on this occasion have to read many columns of newspaper articles and reports before getting a clear notion of the present position, which, seen and judged from a near point of view, is intensely interesting and important. Its interest and importance are in the now well-known fact that the old parties are breaking up and that what we hitherto have called Liberals are by necessity Socialists; and what we call and what will always exist as Tories have but one policy—to pass Radical measures and hamper the working of their Acts by clauses as reactionary as they dare devise. The "checks and safeguards" so prominent in Mr. Gladstone's Home Rule Bill are equally notorious in the Conservative Land Purchase Act for Ireland in 1891, in Lord Cross's Housing of the Poor and Dwellings Act, in Allotments Acts, Land Transfer Acts, and above all in the London County Council, a creation of Mr. Ritchie's which is likely to prove a veritable Frankenstein to the Tories. To allow it to work, reforms are necessary of a kind that make even old-fashioned democrats look askance at them. That Huddersfield should have its tramways as municipal property, that Birmingham should have its gas, Glasgow its water and public lodging houses, and Liverpool its docks, has been thought an innocent development of our municipal institutions; but when it comes to greater London—a nation of five or six millions—trading in gas, water, trams, land, houses and electricity, and superintending education, theatres, music, parks, police and sanitary arrangements, the functions of the Imperial Parliament at St. Stephen's relatively diminish in importance and we become conscious of having let in by a side entrance all the phantoms we had in other directions been combating, such as Federalization, Home Rule and Socialism. This is the key to the position. To descend to particulars, we are supposed to be on the eve of a dissolution of Parliament. Yea! Is it not chronicled that the clock in the lobby of the House of Commons stopped only yesterday and has not been known to have been guilty of such a thing since the eve of the last general election. Soon we shall be seeing seven moons and other portents. "The tolling of the bell" said Sir William Harcourt, speaking before a mass meeting at Whitechapel, "is heard in the condemned cell. The noise of the hammers is heard on the scaffold." Awful! but I saw Balfour going into the Constitutional Club last night looking as jaunty as a second "Pam." After dinner he said nothing of a dissolution; but he did make one guarded allusion to the improbability of the present Parliament existing beyond the year. People, however, seem to have made up their minds that the dissolution is to take place at Easter. The whips so mismanaged matters as to allow the Parnellite leader, Mr. Redmond, to lose a Home Rule amendment to the Address by a majority of only 21. This mishap was followed by Mr. McLaren quite unexpectedly moving the closure when a Mr. Radcliffe Cooke was evidently talking against time to adjourn the debate on the address. The closure was carried, and Mr. Balfour's carefully prepared oration remained unspoken, save what he might have used of it at the dinner given to him by the Constitutional Club. His after-dinner speech was not in his best vein, but he managed to press the more obvious objections to Home Rule in his own semi-philosophic way, and they had all the more force coming after the apparent success in the House of Commons of Mr. Redmond, as Parnell's successor and political legatee. For Mr Redmond, inasmuch as he abused Sir William Harcourt as a coercionist and taunted him with his long past assertion that Parnellite Home Rule meant "Fenian Home Rule," is accepted as a Tory supporter; and had the double honour of being much cheered by the government benches, and appearing in the cartoon of this week's *Punch* as "shadowed" by the dead agitator. Mr. Balfour was only too right when he reminded the Gladstonites that it was not only with Mr. McCarthy and Mr. Healy—not only with Mr. Redmond and the Nationalist party in general they had to deal, but with passions and prejudices and sentiments that would not be assuaged by destroying the "English Garrison"—the landlords. "If Ireland" says Mr. Balfour "is to manage her own affairs so far as the land laws and the police are concerned, how could she be deprived of the power to manage her customs and excise, or how would it be possible in fact or in logic to deprive her of the power possessed by Canada and Australia of imposing [what duties she pleased on British commerce?"

We must not forget that it was part of the ignorance and the "cussedness" of Parnell himself, to present this old raw in the Home Rule question to be rubbed by Ireland's enemies, and covered up somehow by her friends. The expression Mr. Balfour himself quotes as employed by Mr H. Fowler, namely:—"The Irish must work out their own salvation" is the best answer to this and similar objections to Home Rule. We cannot change the Irish race, and it is admitted we cannot govern them as the English of this century would be pleased to govern—that is not as a Cromwell, a Bismarck, a General Booth, or may be Charles Stewart Parnell himself would have governed them. The Irish of the day can see the beauties of protection in Paris, amongst their own rascal congeners, where an aperient draught already costs as much as champagne, and where as stocks become exhausted it is expected bread, meat and wine will rise 25 per cent and ready-made clothes 40 to 50 per cent in price. If these things happen in rich and fertile France, what would be the result in Ireland? where a third of the land is bog and two-thirds of the people have yet to learn the elements of industrial administration. It may not suit Mr. Balfour's uncle, but most people will give the Irish people credit for some common sense. If Mr. Balfour means that considering the temper of the Irish, if Mr. Gladstone's forthcoming Bill is to be as full of checks and balances as a Conservative reform, it will fail, I quite agree with him. If, on account of difficulties all can see, Mr. Balfour would have us shirk the question or reduce it to the level of an Allotments Act, no politician of modern ideas or of common pluck will listen to him. Sir William Harcourt, at Whitechapel, did not say much more than Mr. Balfour. His speech was a mere rollicking electioneering address, but, whilst on the question of Home Rule, he consigned us too much to the care and wisdom of Mr. W. E. Gladstone, he did make a point when he ridiculed what the Conservatives offer as "great remedial measures to redress Irish grievances" as a substitute for Home Rule. Sir William seems by the necessity of the case to be sound upon the London County Council question, for have not the Unionists, as I told you in my last letter, gone over to the Dukes and the property defence people. Sir William Harcourt scolds "his friend" Sir Henry James, and Lord Compton belabours him in open letters for doing the dirty work of the Moderates, who open their campaign at St. James's Hall on the 24th inst.

LATEST FROM MONTEVIDEO.

March 22nd.

The run on the London Bank is not of serious dimensions. It appears to have originated through rumours circulating to the effect that the Bank had been caught in by Murrieta. Mr. Thurburn, the manager, opened the bank an hour earlier to-day to meet the run, which has subsided. The rumors are said to have been maliciously circulated.

The passengers by the Desterro have filed a protest against the food on Flores Island.

Mr. Frederick Vidiella, director of the National Bank, has resigned.

The financial bills have been finally approved by the Senate.

When the President of the Republic heard that there was a run on the London Bank, he had a circular telegram sent to the public offices, ordering them to receive that Bank's notes.

PROVINCIAL NEWS.

Quite an interesting discussion has sprung up in Mendoza in consequence of the National Government claiming a lot of flags and other trophies which the Mendocinos have had from time immemorial, that is from the days of the Independence. It is usually-high-handed way the National Government issued a decree ordering the Mendoza Government to hand over the trophies. It was thought at one moment that the Mendoza Government would resign "en masse" rather than surrender the cherished relics of by-gone valor and forgotten patriotism. However, the trophies were handed over, with the exception of San Martin's walking-stick, which is the pivot of a very animated discussion. Some papers maintain that San Martin never used a walking-stick, that walking-sticks were not known in his time, etc. etc. Another quotes the authority of Ovid and shews that walking-sticks were known to the ancients, that the riddle given by the Sphinx to Œdippus presupposed the usage of the walking-stick, and that, if the ancients used walking-sticks, San Martin must have been acquainted with the existence and very probably with the uses of the walking-stick. Another paper thinks that, if San Martin did use a walking-stick, he would have carved his name on it in his leisure moments, as soldiers always aim at carving their names, whether on sticks, trees, or the tablets of history. Then Napoleon used a walking-stick—it was all the "go" in his days—, and was not San Martin the Napoleon of South America? The Mendocino argument would go on for ever but for the simple circumstance that the Franciscan Friars, in whose keeping the relic at present is, have all the proofs that the stick belonged to San Martin. Don Adolfo Carranza has gone to Mendoza to get the stick for the National Government, and, as soon as he gets it, he will "cut his stick" and return.

Our Rosario contemporary the *Capital* has a vigorous leading-article on the subject of the Corrientes atrocities. The entire press of the country has indignantly called for some redress, yet, we believe, the Corrientes Government have done nothing except to disband the prison guard, and even that is supposed to be a farce, so much dust thrown in the eyes of the public.

The Rosario Committee appointed to distribute money and clothing to the sufferers by the Arroyo Seco cyclone left on Saturday last to fulfill their mission. The sufferers have had lots of time to make money and clothe themselves since the disaster occurred. However, better late than never.

The Cadeneros in Cordoba—although their club was recently dissolved—are still alive and kicking. They are at their old tricks again. On Sunday night an isolated and unfortunate Radical was taking his postprandial constitutional, when he fell in with several Cadeneros who fell on him and felled the poor fellow to the ground. They left him there, but one of the ruffians returned and stabbed him through the heart and throat. This is simply horrible. Even Rosas would not have tolerated an outrage like this. The crime has created such deep consternation in Cordoba that several young men in that city announce their intention of forming a vigilance committee, which means lynch law. The authorities do not appear to have captured the murderers of the ill-starred Radical.

THE FAMOUS MATTA NOTE.

The following is the full text of the famous note sent by the Chilian Foreign Affairs Minister to the Chilian Minister in Washington:—

"Having read the portion of the report of the Secretary of the Navy and of the message of the President of the United States, I think proper to inform you that the statements on which both report and message are based are erroneous or deliberately incorrect. With respect to the persons to whom an asylum has been granted, they have never been threatened with cruel treatment, nor has it been sought to remove them from the legation, nor has their surrender been asked for.

Never has the house or the person of the Plenipotentiary, notwithstanding in discretions and deliberate provocations, been subjected to any offence, as is proved by the eleven notes of September, October and November.

With respect to the seamen of the Baltimore, there is, moreover, no exactness nor sincerity in what is said at Washington. The occurrence took place in a bad neighborhood of the city, the maintop of Valparaiso and among people who are not models of discretion and temperance. When the police and other forces interfered and calmed the tumult, there were already several hundred people there, and it was ten squares or more from the place where it had begun.

Mr. Egan sent on the 26th of October a note that was aggressive in purpose and virulent in language, as is seen by the copy and the note written in reply on the 27th. On the 18th the preliminary examination had already been commenced, it has been delayed owing to the non-appearance of the officers of the Baltimore and owing to undue pretensions and refusals of Mr. Egan himself.

No provocation has ever been accepted or initiated by this department. Its attitude, while it has ever been one of firmness and prudence, has never been one of aggressiveness, nor will it ever be one of humiliation, whatever may be or has been said at Washington by those who are interested in justifying their conduct or who are blinded by erroneous views.

The telegrams, notes and letters which have been sent to you contain the truth, the whole truth, in connection with what has taken place in these matters, in which ill-will and the consequent words and pretensions have not emanated from this department. Mr. Tracy and Mr. Harrison have been led into error in respect to our people and government; the instructions (recommending) impartiality and friendship have not been complied with, neither now nor before. If no official complaint has been made against the Minister and the naval officers, it is because the facts, public and notorious, both in Chile and the United States, could not, although they were well proved, be urged by our confidential agents.

Proof of this is furnished by the demands of Balmaceda and the concessions made in June and July, the whole Itata case, the San Francisco at Quintero, and the cable companies. The statement that the North American seamen were attacked in various localities at the same time is deliberately incorrect.

As the preliminary examination is not yet concluded, it is not yet known who and how many the guilty parties are. You no doubt have the note of November 9, written in reply to Minister Egan, in which I request him to furnish testimony which he would not give, although he had said that he had evidence showing who the murderer was and who the other guilty parties of the 16th October were. That and all other notes will be published here. You will publish a translation of them in the United States.

Deny in the meantime everything that does not agree with these statements, being assured of their exactness as we are of the right, the dignity and the final success of Chile, notwithstanding the intrigues which proceed from so low (a source) and the threats which come from so high (a source)."

Mr. Egan, seeing the foregoing note published in a Santiago paper, immediately wrote to the Minister requesting to be informed whether the note in question was authentic. Matta sent the following reply:—

"In reply the undersigned has the honor to state that, with the exception of very slight differences of words or letters, the said text is the same that was transmitted by the Department of Foreign Relations.

"The copy of the newspaper inclosed in your note is herewith returned to you, and to the end that a comparison may be made the undersigned incloses the Official Journal of the 12th, wherein you will find the genuine text of that telegram and the contents of the series of notes which have passed between the United States Legation and this Department in relation to the riot of October 16th and to the case of the persons to whom an asylum has been granted.

In as much as that telegram is an official act of the Government of Chile, whereby it communicates instructions to its Envoy Extraordinary and Minister Plenipotentiary in the United States of North America, any explanation or dissertation on the part of the undersigned could add nothing to its contents, which are to serve as a guide for Don Pedro Montt at Washington in treating of these matters. Your note being thus answered the undersigned renews to you, as usual, the assurance of his high consideration, and signs himself," etc.

THE CHILIAN CIVIL WAR.

Mr. Osborne Morgan asked the First Lord of the Admiralty whether it was the fact that during the recent civil war in Chile Captain Clarke, of H.M.S. Espiegle, was induced by the Dictator Balmaceda to convey out of the country 336 bars of silver, valued at $936,824, which, under an Act of the Chilian Legislature, had been deposited in the Treasury at Santiago upon an express trust to secure the redemption of the paper currency of the Republic; whether the bullion so conveyed was intended to be used by Balmaceda for the prosecution of the war and the maintenance of his usurped power: whether Balmaceda had previously applied to the Bank of Valparaiso and to the National Bank of Chile to purchase, and to the commander of the United States sloop of war Baltimore to transport out of the country this bullion; and whether he had met with a refusal from all of them upon the ground that the same was subject to a trust for the creditors of the Republic; what commission Captain Clarke received for his services, whether he acted under any and what higher authority; whether the Admiralty order, authorising the commanders of British men-of-war to carry specie belonging to private firms or individuals in time of war, applied to such a case; and whether the action of Captain Clarke had been approved by Her Majesty's Government. (Hear, hear.)

Lord G. Hamilton: It is true that Captain Clarke did convey certain specie from Chile to Montevideo. The silver was placed at the disposal of the then President by an Act of the Chilian Congress. It is not the duty of Her Majesty's officers to inquire into the policy of that proceeding or into the Constitutional questions that were in controversy in Chile. The legal title of the Chilian Government was universally recognised by foreign Governments, and the shipment of the specie by the captain was regular and in no sense inconsistent with the orders on the station. As there is litigation pending it is undesirable to make any changes in the regulations at present, but it is being considered whether some further regulations are desirable in connection with the conveyance of specie at the expense of a public authority. The freight payable is one per cent on the value. One quarter goes to the admiral on the station, one-half to the captain and the company of the vessel conveying the treasure, and one quarter to the Greenwich Hospital. The admiral and Captain Clarke have both asked leave to return any sums to which they are entitled. I have no information as to the third question. Certainly there is no distinction between public and private specie.

BRITISH HOSPITAL, MONTEVIDEO.

The Annual General Meeting of Subscribers to this institution was held on Monday, 14th instant; Mr. Satow, British Minister, in the chair. The Secretary (Mr. Towers) then read the report for the year ending Dec. 31, 1891, which, with the accounts, was adopted *nem. con.* The outgoing Committee were re-elected. Mr. Elliot tendering his resignation owing to his approaching departure for England, Mr. Lane consented to fill the vacancy.

We make the following extracts from the report for 1891:—

In Hospital Jan. 1, 1891	31
Admitted during year	398
Total	429
Of whom were discharged	384
" died	21
Under treatment	24

Of the 429 indoor patients, 69 were free patients, in addition to 98 outdoor patients, who received medical advice and assistance, gratis.

Receipts for the year amounted to $10,135; Expenditure $12,725.

Loss on the working of the Hospital for the year $2,590.

Amount invested in furniture and sanitary fitting $1,725.

Cost of addition to buildings $850.

Total excess of expenditure over receipts $5,105.

The cash balance in hand on January 1st, 1891, not being sufficient to cover this deficiency your Committee have had to draw from the Investment Fund $2,000, leaving an Investment Fund of $9,262.

The number of indoor patients treated during the year shows a decrease of 82, as compared with 1890, mainly due to the falling off in sailing ships and steamers which frequented the Port.

Your Committee regret that they are not able to present a report equally satisfactory from a financial point of view with those of previous years.

Your Committee had for a long time past desired to render the institution more efficient and useful to all classes by establishing a female Ward and providing a staff of trained nurses. These two objects have now been accomplished as far as the means at their disposal permitted. One of the large apartments upstairs has been partially converted into a ward for women containing 7 beds, the remainder of the space being devoted to the proper custody of the linen. Thus the whole accommodation for patients now consists of 4 men's wards containing 30 beds between them, one female ward with 7 beds, 3 private rooms for single patients and two semi-private rooms for two patients each.

The nursing staff includes, at present, a Matron, a Nurse, and one Probationer.

Perhaps, there is no want that has, from time to time, been more acutely felt by the British community of Montevideo than the difficulty of obtaining trained nurses, to attend to serious cases of sickness in private homes. Your Committee are disposed to think that an effectual way of providing for such emergencies would be found in combining an Institute for nurses with the existing Nursing Staff of the British Hospital, but the want of funds and the consequent impossibility of extending the Hospital premises, prevent for the moment the realization of such a project.

They have great pleasure in placing on record their appreciation of the invaluable services rendered to the Hospital by the Honorary Medical Staff, Dr. Fleury, Dr. Lawrie and Dr. Greene, and to express their regret that the pressure of professional duties should have compelled the last named gentleman to resign his official connection with the institution in July last. Finally it gives them great satisfaction to acknowledge their obligations, to the Resident Medical Officer, Dr. Hugh Jamieson and to the rest of the staff for their unflagging zeal and labours on behalf of both the Hospital and the patients.

BUENOS AYRES CRICKET CLUB.

March 21st.

Mr. Editor,

I regret that a friend's illness has caused a day's delay in my reply to the letter in your issue of yesterday, signed "Various members." In my haste to controvert the statement which appeared in your paper to the effect that "the circular was distributed by the "anti-lady" party," and while still indignant at the use being made of it in various private circles, I did not sufficiently weigh my words, and find I made my letter read "It emanated from etc." whereas I should have said "" I am assured" it emanated from etc."

Were I free to do it, I would willingly assist the "various members" in the manner indicated, but for the present I must decline to do so.

It now only remains for me to express my regret in having asserted that the placard emanated from the "party" representing the so-called "ladies' side." The unanimous denial by both parties of all knowledge of it proves it to be, as suggested by "a Lady" in your issue of 19th, the work of some single individual.

I should only be too pleased to see the public denial of all knowledge of the circular by each and all of the gentlemen to whom the statement in my letter of 17th inst. would apply, thus forcing it "out of court," unless supported by sufficiently strong evidence in its favour.

So many single names have been coupled with the objectionable placard in private circles by individuals who coolly assert and name the supposed author, that I think it might remove many bad impressions regarding some of the gentlemen of the Club if the above suggestion were followed out, and at the same time silence those babblers who in my opinion are the real "slanderers."

Yours faithfully,

Don.

[*Ed. Note*—Does it not occur to Don that a person capable of issuing such a placard is also capable of falsely signing a declaration that he had nothing to do with it?]

RAILWAY ITEMS.

We are happy to correct a statement which we were led to make in a recent issue through reading in the columns of a contemporary that one of the passengers injured in the recent accident on the Pacific Railway had died. No passenger has died, and the one that was most seriously injured is progressing very satisfactorily. We are informed by the Pacific Railway authorities that no passenger has been killed on the line since it was started eight years ago. Few railway companies can say as much.

The Manager of the Central Cordoba has asked Government for authority to open a station between Agua Blanca and Colorado, Tucuman, in view of a petition received by him from 146 settlers in that region. The new station is to be called Rio Colorado.

EDITOR'S TABLE.

There was nothing very fresh yesterday except the air, which was very enjoyable, especially for hungry, unpaid State school teachers. Mrs. Rumour had a lot new to say about politics, polo, and speculation.

A good many people intend to go to the Regatta at the Tigre on Friday. Aquatics are much more attractive this fine autumn weather than in the blasting heat of summer.

There was a crowd round Burgos's window in Calle Florida all day yesterday, gazing at an oil copy of Meissonier's famous picture of "The Retreat from Moscow." The copy is well done, and will be raffled for. Also a painting of Dr. Alem speaking in the Plaza. The painter has not done him justice, as the popular Radical leader appears to be singing an aria from Un Ballo en Maschera rather than making a patriotic speech.

Those who are desirous of sending a nice "recuerdo" to their friends at home in the old country could not possibly select anything better than one of Mr. Boote's photographic albums, price fifty dollars currency, for which the artist gives as many lovely pictures in a beautiful morocco cover. The scenes that particularly strike the fancy are the Rocking Stone at Tandil, Marking cattle, Taming horses and Shearing sheep, the native dress and customs being admirably hit off in each picture: also views of Palermo, Tigre, Madero port, La Plata, etc.

We are requested to notify an English priest recently arrived from Wales that he will hear of something to his advantage by calling at the Passionist Convent in Calle Caridad or at this office.

On and after April 15th the steam tramway will run between Chacrita, Villa Devoto and San Martin. Mr. Lacroze has resolved also to put on an Express tram-car from Chacrita to Plaza Lavalle and to Calle Chile, by means of which passengers to and from Villa Devoto will be able to make the journey from or to their offices in town in 50 minutes. This will be a great gain to the Village of the Heights.

Our camp readers will be glad to hear that a mission will be opened by the Passionist Fathers at Suipacha on Sunday 27th inst., and at Junin on Passion Sunday, 3rd April.

The fair Porteñas are about to imitate their English sisters and start a Ladies' Club. We also hear that there are no fewer than *sixty two* marriages to come off shortly in Porteño society.

Some disagreeable doubts are springing up as to whether either Ciacchi or Ferrari will find it worth his while to bring out an Italian opera company this year.

The passengers by the Desterro have published a strong protest against the way in which they were starved on Flores Island, though charged $2 gold per day.

All ye who like minstrelsy in connection with cork-blackened faces, prepare your best bibs and tuckers for Saturday night next, when the Buenos Ayres Christy Minstrels will give their first performance of the season in the Barracas English Institute. The charge is very low, $2 and $1.

A Frenchman named Paul claims to have concocted an Elixir that will make old men and women young again. It is made of sheep's brains; a most appropriate material. A slight admixture of ass's brains would ass-uredly increase its effect on the old donkeys who use it.

There was no steamer for Montevideo last night, with the consequence that the "ultima hora" intentions of many good people were frustrated. They can console themselves with the Duchessa di Genova which will sail to-morrow and probably show her heels to the Orenoque and Wordsworth on the run to Europe.

"Caridad Sin Sacrificio" is the latest idea of the distinguished and good Damas de Beneficencia. Although charity without sacrifice is only a diluted form of the virtue that covers such a multitude of sins, we highly approve of the new plan of the excellent ladies in question, which is to send round daily to collect old papers, rags and odds and ends of all kinds that are usually pitched into the 'vasura' box, but, when collected in quantities, have a money value. So far as old newspapers go, we can help the worthy Damas to a considerable extent, as our exchanges from all ends of the earth are increasing as fast as the La Plata Bonos for the payment of Cedula coupons.

The Lomas Academy School Sports will be held on Friday next, the 25th, on the L. A. A. C. ground, Lomas, to commence at 12 o'clock. Everybody interested in the School is invited. The programme is first rate, and, given fine weather, the open invitation issued will be largely availed of.

Initials are sometimes useful for shortness sake, but not when they cause people to be confounded with smugglers and other 'pajaros' of the kind. Messrs. Demarchi, Parody & Co. have deemed it necessary to write to the papers to say that they have no connection with the case of imaginary cigars smuggled at San Fernando the other day and marked D. P. and C.

Poor Chile is up to her neck now in claims from Uncle Sam for damaging his citizens. It appears that the enormous indemnity of £500,000 claimed for the Baltimore victims of the Chilian mob has encouraged others to come forward to turn an honest penny out of the Chilian Treasury. We mentioned one fresh case yesterday, and now there is another, that of Mr. Fred May, who came across the Andes with our Thespian friend Mr. Edwin Cleary two months ago. While crossing the Cordillera Mr. May's mule fell on him and hurt his leg, and the question now raised is whether that mule was born in Chile. If so, his country will have to pay for the bruised leg. This reminds us of the Englishman in Leghorn, who having washed his hands before going to dinner, flung the water out of the window into the street. It drenched the Grand Duke of Tuscany who was passing by at the moment, and our countryman rushed down and made the most profuse apologies to his Highness: who immediately said to him, "For Heaven's sake Mr. Englishman, don't say a word about it, or your Lord Palmerston (then Foreign Affairs Minister) will be down on me for an indemnity for passing under an Englishman's window."

'Los Feos' in the Comedia Theatre in Calle Artes is a great 'draw'. The great hit in the piece is an original song about the Volunteer National Guards at Palermo. On Monday night there was a large number of these young gentlemen amongst the audience, and they liked the song so much that they stood on their chairs and cheered and encored it again and again.

Admiral Walker and his officers will be entertained at a grand banquet in the Cafe de Paris before they leave us. They will find that Delmonico could not give them a better dinner.

We rejoice to announce that our numerous subscribers, friends, supporters, admirers and constant and casual readers in Belgrano and Flores are not to be left in the dark. The Gas Company, with touching confidence, has agreed to accept half its debt in Municipal Bonds and half in shinplasters. This settles the question till the next big bill is run up.

A robbery of $14,000 was announced by the Montevidean papers the other day. On investigation the whole thing was found to amount to $14 and a box of cigars. Perhaps the latter were worth $13,986; though it is unlikely.

We note that the practice of handing back the tickets to the "mayorales" in the tram cars is growing fast, and

Dear Sirs—
"I have tried HAYWARD'S "ASTE" DIP on my Sheep, and have pleasure in bearing testimony to its EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.
The "ASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."
Yours very truly
(Signed)

It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

ON 'CHANGE.
Tuesday, March 22.
The gold market opened with a very bullish feeling this morning. Over fifteen thousand ounces changed hands at the first ring: the price opened at 57.10, weakened slightly, and closed at 56.80, hard, say 249¾ premium. Over three thousand sovereigns were sold at 17.70 to 17.66, say 250⅛ premium All kinds of queer rumors were afloat today with regard to politics and finances in general, and the market ruled very firm all morning.
Patriotic Bonds tumbled to 58.90 today. Shares of the Banco Agricola Comercial closed at 14. Spanish Bank shares were very firm at 86. National Cedulas A gold were in demand at 30. La Plata Cedulas were firm at 29.60.
Owing to the departure of the two packets exchange was at a stand-still to-day. Discounts continue difficult.
The following is a summary of the business effected in stocks and shares at the first ring to-day:—

The latest mails give the following details of the market for Argentine stocks:—
"There have been several false starts during the week towards a recovery in South American stocks, but the improvement has not held in all cases, the protracted meetings of the debenture-holders of Messrs. C. de Murrieta and Co., Ld., having caused a disagreeable impression, and prevented any further recovery. Yet the gold premium in Buenos Ayres is reported considerably lower at 264, and prospects in the Argentine Republic appear for the present brightening. The Argentine Loan of 1886, while not retaining its full improvement, is 1¼ higher for the week at 604, the Funding Loan being quoted 1 higher at 52, after having touched 53. Cedulas are firmer, the National series A at 214, Buenos Ayres P at 84. Uruguay Bonds are firmer, but the quotation is now for the new converted bonds, which stand at 93¾, the conversion having proved successful, as I had anticipated for some time. Brazilian Bonds have fluctuated in sympathy with cable advices from Rio de Janeiro respecting alleged revolutionary movements, which were contradicted by the Brazilian Minister in London on the strength of official despatches. Renewed rumours of disturbances in Ceará have, however, again depressed quotations, although there is a strong suspicion that these rumors of insurrections, &c., are purposely exaggerated. The 1889 Scrip is again down to 57, the 1888 and 1888 Loans to 59.
The cheques of the Provincial Bank closed this afternoon at 47½% discount; those of the National Bank at 30% discount. Bonos of the La Plata Mortgage Bank were quoted at 11½.
Advices from Montevideo stated that the run on the London and River Plate Bank had subsided. Our frisky friends on the other side of the river are old hands at this game of running on banks; they play into the hands of so-called "cambistas," or money-changers, who receive the notes of the Bank at a discount and collect them at par. The only victim in this kind of business is the public, and they ought to be wise by this time. The banking colossus of the Plate, as the London and River Plate Bank has been called, can face any run, whether in Rosario, the Mount, Paysandu or Buenos Ayres.
The stagnation continues in the produce markets. Wools are moving off slowly, but the article is going away faster than people imagine, for all the steamers leave with full cargoes.
It is amusing to read that the run on the London Bank in Montevideo was caused by a rumor that the Bank was implicated in Murrietta's affairs. We need hardly add that no bank in the Plate has had business connections with Messrs. Murrieta for the last two years

The National Government issued a decree this afternoon appointing Dr. J. Ramos Mejia chairman of the Board of Health.

Don Emilio Hansen, Minister of Finance, addressed a note to-day to Mr. Areco, director of the Caja de Conversion, answering all the charges contained in the resignation note of the latter, and conveying to him the thanks of the Government for his many and valued services to the country. The Minister's note is a polite reminder that the dissensions in the Caja de Conversion can never excuse the intemperate tone of Mr. Areco's note to the Government. Mr. Hansen's note to Mr. Martinez is more mellifluous, thanks him for his valuable services, and regrets his resignation. That to Mr. Frias is of the same tenor. That to Mr. Chas is the longest of all these epistles, and enters into all the subjects that have led to the break-up of the Caja Board, the small note issue, the Cordoba Bonos, and the Tucuman Debt arrangement. The Minister says that the Cordoba Bonos question will be submitted to Congress. The market, at large however, from some cause or other, has applauded the course taken by the three ex-directors of the Caja de Conversion, as well as the very outspoken language of the respective notes of resignation.

Mr. Francis Seeber has offered to sell to the National Government a property in the Calle Viamonte Nos 430 to 440 for $400,000 m/n. The house has forty rooms and might serve as a museum for the Department of mining or other similar purposes. A committee appointed to study the matter has reported favorably on Mr. Seeber's offer, adding that the property is worth $388,619, which might be paid to Mr. Seeber in land bills at 3, 6, 9 and 12 months.

Engineer Augusto Tatin has been proposed for the vacancy left in the Hydraulic Department by the retirement of Engineer Biedermann.

The cost of the proposed bridge across the Rio Quinto, near Mercedes, in San Luis, is estimated by the Engineers' Department at $20,000. The Government has been asked to pay the Department this amount.

Engineer Orestes Vilpiani has been proposed to fill the vacancy caused in one of the dependencies of the Board of Public Works by the retirement of Engineer Carlos Wiekmann.

The statutes of the Yacht Club Argentino have been submitted to Government for approval.

The London *Daily News* discusses as follows our Argentine finances:—

"Good authorities appear to agree that the depression affecting Argentine bonds is rather here than in the Plate. The people on that side of the ocean being relieved of the necessity of paying interest for three years, are not taxed to death, and the low value of paper currency gives a feeling of prosperity to those exporters of produce who sell for gold, and are so enabled to buy increased quantities of paper dollars for the payment of current expenses. What has to be cured is the feeling of hopelessness on this side, and as soon as any good plan is seriously put forward by responsible parties, this miserable feeling will tend to be dissipated. The first thing to be done is to ascertain what the country can pay on its debt. At present, the Customs duties on imports and exports yield little, because imports are small at the moment, and the tax on exports is a very low one. If the imports and exports together bore a duty of 10 per cent., the revenue would be $3,000,000 sterling, while stamps, licenses and other internal taxes are estimated to yield a further £1,500,000 sterling. The total so produced—£4,500,000 sterling—would leave about £2,000,000 for the service of the national debt. No doubt every effort will be made to preserve the first charge on the Customs, formed by the 1886 loan, which bears 5 per cent in gold. The Six per Cent Funding Loan is a second charge, but opinion is now in substantial agreement that 6 per cent was too high a rate to promise on the funding bonds, and it might well be reduced to 4 per cent. The other national bonds would remain an inferior charge on the Customs and other revenues, but it would be hardly just to reduce their rates of interest, seeing that Argentina had been able to convert its debt into bonds bearing a lower rate of interest when Argentina, at the height of its prosperity, had been able to convert the debt and reduce the interest. There would then remain the guarantee on railway bonds, and it seems likely that if the companies are deprived of the Government guarantee they will require nothing in return but the liberty to adjust their affairs as they please, without Government interference. This scheme only deals with the national debt, and leaves the provinces to make a settlement of their own; but it appears fair. Indeed, Argentina might be invited to accept it even before the three years' moratorium has expired—that is, before November, 1893. If the country cannot pay meanwhile, it must pay what it can, with due regard to priorities; and if European markets saw that Argentina was really making efforts to restore its credit, half the battle would be over."

Mr. Wm. Kemmis, the well-known breeder of fine stock, writes as follows:—

Estancia Las Rosas,

10th Jan., 1891.

I consider that no estancia which has any stock worth giving medicines to ought to be without these medicines.

The GASEOUS FLUID is the very best colic medicine I have ever seen given to horses, and the RED DRENCH for any illness after foaling or calving or lambing is, I consider splendid.

Yours truly,

In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 15 minutes "draw," Indian Tea yields 17·73 of tannin, while from China comes only 7·93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.

DR. J. COLLIS BROWNE'S
CHLORODYNE.
The original and only genuine
Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis Asthma.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.
From Symes & Co's, Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medecine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Sapasms, Crampas, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation duty many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.
CAUTION,—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See the "Times," July 13, 1864.
Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.
CAUTION.—Beware of Piracy and Imitations.
